

NEW PRODUCTS

Starting this September, early elementary teachers will have their own moozoom module ! Five interactive mini-Zooms will be available on respect, friendship, taking no for an answer, sharing and conflict. Complementary activities and posters will be included. Real kids present real issues, accompanied by an engaging animated character who will help children improve their level of self-regulation and introspection.

Webseries

CREATE THEIR OWN STORY

In this new season, students will still be able to choose the course of the story and help the main character get out of trouble. However, there will be twice as many solutions that our little heroes will be able to apply in their own lives!

MISSION TO BECOME HUMAN

Zoom-Out becomes Zoom-Act! A more fun, educational and interactive concept that will allow kids to put themselves in the shoes of an android trying to become a real boy. Its control system, Mira, will guide them on this big adventure, inviting the student to choose each step that will lead them to develop a social skill.

TWO WAYS OF SEEING THINGS

With the new Zoom-Ins, students will be able to get inside the heads of each of the characters to better understand their point of view. These different perspectives will no doubt help develop empathy in kids and add a touch of captivating interactivity!

SERIE TO REDUCE ANXIETY

An entire section will now be dedicated to the Zen Zone. Six procedural videos will be accompanied by an audio version of a mindfulness meditation. Whether at home or at school, during a crisis or before going to sleep, kids will have a tool at their fingertips to learn how to breathe better, refocus and feel better.

THEMES

EXERCISING JUDGMENT
